

MEMORANDUM

To: North Hills Singers
From: Noah Cherry, Associate Music Director
Date: January 13, 2023
R.E.: Music plans Winter/Spring 2023

Dear singer and choir member:

Thank you everyone who participated in the Fall 2022 Ensemble opportunities! And thank you for the warm welcome and the hard work that has kept our ensemble running. Our plan is to have the ensemble sing for services **twice a month**, typically on the **second** and **fourth Sunday** of the month. You can see an up-to-date schedule through May attached to this memo. I will continue to email for available members, but I will also check the sign-up sheet on the Music Closet in the church office:

1. The music is available for you in the “Music Closet” in the church office.
2. On the interior doors, sign on the dates you’ll be available.
3. PDFs, YouTube links, and additional materials will be emailed out at least a week in advance
4. On Ensemble Sundays, we will meet at 8:30am to review our anthem(s) and prepare for the 9:30am service. **This is subject to change as necessary.**
5. Our choral scholars and I stand available to help you learn your part if you’d like. This means a free voice lesson from Seth, Kellan, or me! Text Kellan (616.427.6332), Seth (248.877.3504), or me (586.770.9737) if you’d like to schedule our assistance.

Thanks for considering this invitation. I am very excited for the rest of the semester and the future of music at North Hills!

Our tenor Choral Scholar is **Kellan Dunlap**. Born and raised in Grandville, Michigan, Kellan is now a Senior at Oakland University where he double-majors in voice performance and music education. Wish him luck on his grad school auditions!

Seth Miller is our bass Choral Scholar and arranger extraordinaire. Seth was born in Los Angeles and moved around the country before settling in Michigan. He graduated from Oakland University with a bachelor’s degree in classical guitar, and now is preparing for grad school later this year at the European Academy of Fine Arts’ Film Scoring MFA Program.
